

## FAST-GRIND® TOOLS

PRODUCT RANGE	
ARTICLE CODE	DESCRIPTION
FGMT0050	FAST-GRIND® BROWN GRIT 50 WET
FGMT0100	FAST-GRIND® BLACK GRIT 100 WET
FGMT0200	FAST-GRIND® BLUE GRIT 200 WET
FGMT0400	FAST-GRIND® RED GRIT 400 WET
FGMT0800	FAST-GRIND® WHITE GRIT 800 DRY&WET
TECHNICAL DATA	
WEIGHT	690 gr / 24,4oz
SIZE	90mmL x 110mmB x 25mmH / 3,5"L x 4,3"B x 1"H
Connector	Magnetic plate
Spacer	Flexible rubber
Packaging	Per box of 3 pieces

## PRODUCT DESCRIPTION

FAST-GRIND® consist of 12mm superior resin diamond bond segments. They are designed in a unique shape with ample space between the segment to increase water flow and reduce clumping of dirt. The segments are glued on a rubber spacer to increase flexibility and contact with the floor.

## CLEANING & STORAGE

After using the FAST-GRIND® TOOLS, clean them with water and store them in a dry place.

## RECOMMENDED USE

- FAST-GRIND® BROWN 50: For a 'pepper and salt' structure
- FAST-GRIND® BLACK 100g: to remove curing and tire tracks
- FAST-GRIND® BLUE 200g: creates a matt look
- FAST-GRIND® RED 400g: creates a semi gloss look
- FAST-GRIND® WHITE 800g: creates a gloss look

## UNIQUE DESIGN

The Fast-Grind® tools are designed with 12mm top quality resin bond diamond offering incredible polishing results and a superior tool life.

The unique shape is designed with ample space between the segments so water and dirt can easily flow through and not clump up between the segments, increasing both the polishing result and the tool life.

The flexible rubber pad between the diamond and the magnetic plate allows the tools to follow the floor perfectly and compensate for uneven parts.

The Fast-Grind® tools are equipped with a magnetic plate that easily snaps on the drive plate allowing you to change the tools extremely fast and with minimal effort.

The Fast-Grind® tools are equipped with a magnetic plate that easily snaps on the drive plate allowing you to change the tools extremely fast and with minimal effort.
